DETAILED ACTION

Allowable Subject Matter

1. Claims 1-7 are allowed.
2. The following is an examiner's statement of reasons for allowance: as to claims 1-7, patentability resides, at least in part, in the device comprising an I/O port positioning frame, a fastening assembly being formed of a substantially T-shaped plate comprising a first and second snapping element, a handle and a plurality of fastening elements, in combination with the remaining limitations as claimed. The examiner of record believes that the prior art of record fails to teach and/or fairly suggest such limitations as claimed. The examiner of record would like to especially address U.S. Patents 6,608,765 to Vier et al. and 5,757,618 to Lee, both, failing to teach and/or fairly suggest at least one of the limitations set forth above. Therefore, claims 1-7 are deemed allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Please note the teachings of Vier et al. (6608765), Lee (575618), Chen (20020075638), Shyr (20030001467), Kuo et al. (20030038095), Liao (20040037048)
